Re: General Notice of Potential Liability
South Dayton Dump, 1976 Dryden Road. Moraine, Ohio

Dear Ms. Johnson:

Delphi Automotive Systems submits this letter in response to the General Notice of Potential Liability issued by U. S. EPA on March 29, 2002 and received by our office on April 2, 2002, for the South Dayton Dump ("the Site").

Delphi is currently conducting an internal investigation for information relating to its alleged connection with the Site. While Delphi is willing to participate in discussions with the EPA and other PRP's in an effort to settle this matter, we feel it is premature to commit to financing the activities at the Site until we have had an opportunity to review all relevant documents and information.

Please address all communication regarding this Site to:

Cassandra Weaver

If you have any further questions, please feel free to contact me at (248) 267-5716.

Sincerely,

Cassandra Weaver
